

MUHAMMAD ARSLAN JAFFER

SOFTWARE ENGINEER

Location: Rawalpindi | Email: ars3lan.se@gmail.com | Contact Number: +92-306-6330002 | Profile: [LinkedIn](#), [GitHub](#) & [Portfolio](#)

Profile Description

Software Engineering student specializing in applied Deep Learning, LLM integration, and agentic workflows. Proven track record building end-to-end AI applications, cross-platform systems, and data pipelines to solve real-world problems.

Professional Experience

- **Deep Learning Intern | Ezitech Institute (Rawalpindi, Aug 2026 – Present)**
 - Developing and evaluating applied deep learning architectures and NLP pipelines, optimizing data preprocessing and model performance for production readiness.
- **Machine Learning Intern | Ezitech Institute (Rawalpindi, Aug 2025 – September 2025)**
 - Executed data pre-processing, model evaluation, and optimization pipelines utilizing Python and TensorFlow.
- **Technical Intern | Acro Weaving and Spinning Mills (Lahore, Dec 2024 – Jan 2025)**
 - Managed corporate database systems within the IT department to ensure accurate and efficient organizational record-keeping.

Technical Skills

- **Languages & Frameworks:** Python, C++, C#, Dart (Flutter), JavaScript, React, Next.js, Node.js, Express.js
- **AI & Deep Learning:** PyTorch, TensorFlow, LLMs, RAG Pipelines, Vector Databases (Pinecone), Groq, Prompt Engineering
- **Tools & Automation:** Git/GitHub, Docker, Linux (Fedora/Ubuntu), n8n, Streamlit
- **Databases:** MongoDB, MySQL, Oracle
- **SDLC & Management:** Requirements Engineering, Architecture & Design, Quality Engineering, Project Management, Human Computer Interaction.

Education

BSc. Software Engineering

Sep 2023 - Present
Air University, Islamabad

FSc (Pre-Engineering)

Sep 2021 - Jun 2023
Army Public School & College System, Rawalpindi

Matric SSc (ICS)

Apr 2019 - Jul 2021
Army Public School & College System, Rawalpindi

Soft Skills

- Creative Problem Solving
- Team Collaboration
- Adaptability & Self-Learning
- Systems Thinking & Workflow Optimization

Extra-curricular Activities

- **Graphics Team Lead | Google Developer Groups (GDG) on Campus**
 - Directed visual branding and designed professional marketing materials, including AI-themed campaigns like 'Beyond Prompting', 'Build with AI', 'AI Seekho', 'Code Air 3.0' and 'Code Air 4.0'.
- **President | Air University Animal Welfare Society**
 - Orchestrated large-scale community events such as Pet Fest '26, coordinated rescue operations, and managed core society initiatives.

Projects

- **Parwarish.ai (Autism Aid Platform):** Engineered a multi-platform therapy and educational system featuring child, parent, and therapist portals powered by custom AI agents and Flutter.
- **Agentic AI Workflow:** Built a full-stack solution connecting a Flutter frontend to Python agents orchestrated via n8n automated pipelines.
- **Safec Emergency Guidance App:** Developed an emergency guidance mobile tool utilizing real-time sensor integration, camera, and voice input.
- **Full-Stack Health Application:** Implemented a MERN-stack platform featuring distinct role-based access for patients, doctors, and admins.

Publications

- K. Batool, F. Gillani, and **M. A. Jaffer**, "A Comparative Evaluation of Large Language Models for Accessibility Barrier Detection in Video Game Reviews," in *Proc. International Bhurban Conference on Applied Sciences and Technologies (IBCAST)*, 2026.
